

What others say:

"Our watercolor class was great fun and so informative that I believe I could continue to do watercolor paintings for quite a while myself!" Kathy Robinson

" I enjoyed your lesson on painting watercolor poppies. Using more colors and less detail was new to me. I think I might like to try more watercolor painting, and I definitely want to try more flowers. Thank you for your inspiration!" Pat Medina

"I learned more about watercolor technique in the two-hour lesson I took from you last summer than I had from an entire series of watercolor classes previously. You're very generous in sharing your knowledge and your joy in exploring the medium."
